## A Preferred Partner

At Learner's Planet, we share a vision with every responsible institution, committed to provide excellence in education and willing to deliver outstanding results. We want to work in synergy with institutions and their teachers, to help mould young students into future beacons of change so they become effective leaders.

Our online virtual learning environment is designed to perfectly complement physical tutoring in the class room. As we know, each student is individually different and therefore we are here to offer excellent solution for this. Not only we do offer a rich variety of learning resources and tools, but we do also offer an online platform where students and teachers can engage in lively discussion and debates, while learning, having fun and even playing games that test and educate. Students can work at their own pace and teachers can download additional notes and activities that make lessons more interesting and engaging.

Learner's Planet is a rich source of online content, video lectures, mock examinations, educational games and much more. We support and complement learning in a physical classroom with our virtual online environment where

students can brush up concepts, revise their lessons and stay abreast of the rest of the class conveniently. A subscription for Learner's Planet would bring tons of learning material at your mouse click so schools and institution can be made free from this money & time consuming administrative hassle.

It is our aim to establish strong and lasting relationship with educational institute and professional educators who wish to provide their students unmatched benefit of a virtual environment like ours for the years of foundation and prepare them to take challenges lie ahead in this immense competitive world. To achieve this, we are there with you to support 24 x 7, 365 days.

Why Learner's Planet! What we offer! How are we different! -

Learners' Planet

## Introducing

## A fun lesson in new-age education

### We believe...

"Knowledge is not something to be packed away in some corner of our brain, but what enters into our being, colors our emotion, haunts our soul and is as close to us as life itself".

-Dr. Sarvapalli Radhakrishnan

### Expect the Advantage

Today's world is fiercely competitive. We live in a challenging era where students have so much to achieve and so little time at their disposal. In such a fast-paced environment, how does one empower these youngsters to move confidently ahead and take the lead? The answer lies in a strong learning foundation based on engagement, fun and interest.

Today's students need more than just books; they need to be effectively captivated. Their world is a technologically advanced one and we at Learners' Planet believe that we can harness that technology to take the learning experience to a whole new level.

### Revolution in education

Ours is a revolutionary educational system, created by experienced educators and dedicated academicians. We have developed cutting-edge and innovative learning resources that capture attention, generate curiosity and ensure that students have plenty of fun while learning. We deliver this experience via a user-friendly and easy to navigate interface -

[www.learnersplanet.com](http://www.learnersplanet.com)

Our website lays a solid foundation upon which knowledge levels are built. It also acts as a ready-reckoner for students who want a quick and interesting refresher of concepts. Starting from Kindergarten, right up to Class 12, our lessons span a range of syllabi and subjects.

### A role beyond the classroom

At Learners' Planet, we understand the importance of capturing and retaining the interest levels of your students. We know that a skilled teacher will always achieve this in the classroom, however, even good teachers will appreciate new resources and tools that assist them with keeping engagement levels high. That's why we use attractive visual tools and enjoyable games and puzzles, in addition to interactive online tests, quizzes, modules and worksheets. In this way we try to act as a teacher's right hand, always there to keep the momentum going.

Our objective is to transform the learning process on continuous basis by offering an effective and well-planned content mingled with modern methods of education with a professional outlook. This synergy results in a platform that both teachers and students can trust and benefit from.

### A subscription will take you far

Today's teachers have a heavier load to bear when it comes to instilling confidence and creativity in their students. In such a situation, it could be to the advantage of both student and teacher, to make good use of technology-based, new-age tools and resources. To this end, Learners' Planet, India's largest education web portal, is designed to offer such innovative learning aids. That's why we believe that it's a good decision to subscribe to our online content. Just log on to our website and sign up, to give your students an educational boost they deserve.

## Helping students make the move from average to outstanding

### Inspiring change

A teacher is a child's role model and a good teacher will always be able to stimulate the imaginations of their students while inspiring them to greater heights of achievement. So when we say that we can help you further captivate you students and help them move ahead even faster, we do mean it. You will find interesting and exciting new learning resources on our web portal, that we know will be of great interest to you and your students.

Starting with delightful lessons for children in Kindergarten and ending with excellent educational content for Grade 12 students, Learners' Planet is your one-stop solution for high quality academic content, right through those all-important foundation years.

### The subjects we cover are

- Mathematics
- Science            Split into Physics, Chemistry and Biology for senior grades
- English

### A bright future starts here

Our lessons perfectly complement school syllabi spanning various board exams:

- CBSE    • ICSE / ISC    • State Boards

Would you like to guide your students towards achieving their dreams of becoming top-level Engineers or Doctors? If yes, we have the resources to prepare them well for key Engineering and Medical entrance examinations. Intensive help via Online Mock Tests and Online Practice Tests is just a click away.

# A great game plan for the competitive game of life

## Sometimes work can be play !

It is true that games are an age-old teaching tool. From nursery rhymes to television quizzes, a game can be both fun as well as tremendously educational. In fact, a well-designed educational game can make learning a truly enjoyable experience. Incorporating compelling exercises, a game can motivate, excite and challenge a young mind, to explore, discover, ideate and assimilate new knowledge, all while ensuring that kids have a great time.

**At Learners' Planet, our Play 'n' Learn is a hotspot of thrilling activity that leads to greater learning.**

### Crossword Puzzles:

These challenging puzzles throw up a plethora of questions spanning Science, Social Science, English and General Knowledge. Thinking up the right answers augments cognitive skills and expands aptitude, while offering new knowledge and understanding.

### Jigsaw Puzzles:

We've all had plenty of fun solving Jigsaw puzzles and now at Learners' Planet, they serve the purpose of developing essential skills as well. Putting the pieces together to form a complete picture helps children develop good eye-hand co-ordination. They can choose from a variety of options, with different numbers of pieces and designs.

### Educational Games:

Apart from Crossword and Jigsaw puzzles, the Gaming Zone has a variety of educational games designed to deliver better understanding of English, Math, Science and General Knowledge. From grammar and vocabulary challenges to Phonic Games and Sudoku Puzzles to General Aptitude enhancers, we have a range of fun and fabulous games for kids to enjoy while learning.

### LP's Ocean of Knowledge :

This section on our web portal, offers interactive lessons that allow students to learn via visual cues and attractive interfaces.

## Learning that's greater than normal and equal to success

### Welcome to the LP Math Worksheet Generator

Even with excellent coaching in the classroom, some children find it hard to grasp certain mathematical concepts, making it difficult for them to enjoy the subject and ultimately putting them off maths completely. Such students can always benefit from a little interactive practice in an environment where they are not under any competitive pressure and where they can study at their own pace. We offer a good solution with our path-breaking and unique LP's software that's designed to generate infinite Interactive Worksheets with a range of varied and challenging exercises.

#### Race ahead on the learning track, at your own pace

These worksheet problems can be solved online, with the facility to type in answers and then check them. In this way students get instant evaluations of their understanding of a particular topic. Those who prefer to work at a more leisurely pace, offline, can simply print out a worksheet and later check their answers against the answer sheet, also provided.

#### Application to real life:

These useful worksheets can also be used to practice application of *Math* in real life situations, such as shopping in the market, banking transactions, staff salaries, billing in restaurant etc.

#### Practice makes perfect and here are some sections covered with our LP Math Worksheet Generator:

- Addition
- Subtraction
- Multiplication
- Division
- Ascending / Descending Numbers
- Missing Number
- Number Riddles
- Word Problems in Addition
- Word Problems in Subtraction
- Word Problems in Multiplication
- Word Problems in Division
- Billing Counter
- Graphical Analysis
- Data Analysis

# Choose, Click, Learn !

## Three modes of learning with three goals

Keeping up with current trends in education and learning methods is not easy, but we take the lead when it comes to offering cutting-edge ways to learn. We leverage the latest in technology to make the online educational experience, simple, efficient and interesting. We do believe that our web portal will ensure increased effectiveness of teachers and greater success for students.

### e-Lectures

A young student is easily distracted and this lack of concentration may lead to missing important lesson in the classroom. Some students may also miss a lesson due to illness or other unfortunate circumstances. It's not always possible for a teacher to repeat the lesson. So how do we make sure that your students catch up with the rest of the class? Our experienced teachers record special sessions explaining concepts in a clear and concise manner. Students can watch these lectures on any topic in any subject as many times as they like and whenever they need to. This results in a thorough understanding, better learning and quicker revision.

### e-Notes

Students can download and print detailed and easy to understand study notes for each chapter taught in Math, Science and English. Now they can say goodbye to heavy books and say hello to the convenience of e-Notes.

### Printable Worksheets

In order to help students practice a topic till they feel completely comfortable with its concepts, our LP Worksheet Generator creates exercise sheets filled with well laid out problems. A student can get instant evaluations by filling in answers online or they can print out the sheet and work at leisure.

### Quizzes

What's the fun without assessment of concepts learned. A student can take unlimited interactive quizzes in each subject, any chapter and every topic. LP offers plethora of pre-designed tests, quizzes and practice tests. Test result and analysis is instantly emailed, which acts as great tool to highlight weak and strong areas of the student.

## Wade in and test the waters

### Experience the Online Testing Platform

Are your students nervous about an upcoming exam? Now they can gain valuable and practical understanding of what that test experience will be like. Learners' Planet offers access to India's largest and most comprehensive question bank for every level right up to Grade 12. These questions cover all subjects and topics.

At Learners' Planet your students can practice with Online Mock Tests for a variety of competitive exams including:

**IITJEE**

**NTSE**

**AIEEE**

**Olympiad**

**BITSAT**

**ISEET**

**ASSET Test**

## Take a Test

When it comes to bagging a much desired seat in the professional course of choice, exam fear is common, even for a well-coached student. It is often the highly competitive environment which is responsible for this lack of confidence. At Learners' Planet we understand the importance of practicing with Mock Tests, so that students gain a better understanding of critical examination formats.

With the concept of emulated testing working in their favor, students get a feel for the actual testing environment, while experiencing working in the online environment. In this way, not only do they practice the types of questions that they may have to answer in an upcoming exam, but they can also familiarize themselves with the format of questions and answers, thus saving time when actually taking the exam.

## View Results for Comprehensive Analysis

Students benefit from Instant Reporting when taking a test at Learners' Planet. In a comprehensive post-test analysis, they can view a detailed explanation of each question attempted. They can also see how accurate they were in attempting questions in various sections of the test, while analyzing time allocated to different sections. Benchmarking against the best is easy. Results can be compared with all India ranks and percentiles, by section as well as the overall result.

## Design your Test

We think that limitations and boundaries inhibit progress. That's why, with Learners' Planet, students can create unlimited objective format customized tests. The Dynamic Paper Generator enables the creation of any pattern of test including Multiple Choice Questions, Comprehension Based Questions, Matrix Matching (one-to-one) and Matrix Matching (one-to-many). Absolute customization is possible right down to subject, chapter and section.

## A look into the future for Engineering and Medical aspirants

### Laying the foundation for a successful career

As a teacher, you feel responsible for the success of your students as they leave school and embark on professional careers. Your teaching lays a strong foundation, but you can also offer them support and guidance that goes beyond the school syllabus. You know that Engineering and Medicine are highly sought after career options, and that's why there's so much competition to enter these fields. Your students need the extra edge to take them ahead and allow them to crack highly competitive engineering and medical entrance examinations. That's why we offer a one-stop solution that is designed to ensure that kids in Grade 9 to Grade 12 can enjoy the maximum support and assistance as they prepare to sit those life-defining entrance examinations.

Whether it's IIT JEE, AIEEE, ISEET, JEE, BITSAT, AIPMT or NEET examinations, subscribing to Learners' Planet services will give students unmatched learning support. They can refresh their knowledge with hundreds of online recorded lecture sessions that make concepts easy to understand and they can access these at home, 24 hours a day, 7 days a week. They can study at their own pace and won't have to make long journeys to get to daily coaching classes. They can download, read and print comprehensive and precise chapter notes and worksheets. To get an understanding of the exam format and environment, they can access unlimited online tests that offer in-depth performance analysis through instant reporting. In fact, we believe that we provide unmatched digital content in preparation assistance.

So if you want to see your students shape the future of the world, pioneer change and make a difference, we can help. A subscription to Learners' Planet gives students a true added advantage.

## Discover the dynamic difference

### Learners' Planet offers a host of unprecedented benefits:
